

Let's Get "Gritty"

If you've figured "IT" out, let's dip into Jeanie's collection of topics...

*Are you ready to grow "GRIT" and live a more abundant life?
What grips your gut when asked describe success?
What's the difference between a good and a great performance?
What is Grit anyway?*

Jeanie Martin's next live presentation is hosted by Aurora University. It's free, it's fabulous and it's coming up May 22nd.

Using her own signature style, Jeanie's created a series of questions and exercises that will help you grow grit!

There are 6 ways to start growing GRIT:

1. Go as far as you can see and when you get there, you'll be ready for the next place.
2. Surround yourself with people who believe in you and ignore the rest. Their encouragement increases your imagination.
3. Use your strengths unapologetically.
4. Shape the way you think intentionally.
5. Know what makes you tick...very different from what brings you joy or makes you happy. This is your fuel that makes you PUMP.
6. Last....do the ONE THING. It's the one you're avoiding that you know will make a difference but you put it off.

Come find out how to grow grit...or contact her for your own private training.
